St. Louis, Mo., Aug. 11.—[Special.]—For three hours this morning all the St. Louis Fire Department were busy, and gods. The flames consumed, and were fought with fierce and prospering to have the power of their persistent struggle; a terrible calamity seemed given them for several days had lowered a dark cloud. They did not apprehend immediate danger, but suddenly, before a word of warning could be given, the big wall company falling down Second and a spectator and dangerously wounding four others.

A few minutes before 9 o'clock this morning the men were at the fire-story establishment of Bailey & Egan, corner of Fifth and Vine streets. At the United States Treasury yesterday there was $1,000,000 to $1 per cent bonds offered for redemption at prices ranging from [illegible]

The manager's department concerning the [illegible] in that section of Michigan and Wisconsin where forest fires are raging are to the effect that the devastation continues to be alarming extent.

Rev. Rufus Phrenmer United States [illegible], who was ordered general secretary upon [illegible] Springs, Wyo., for a century, has been suspended from duty and ordered to his home to await further orders.

Business railroads are preparing for a large business in freight traffic this fall, but owing [illegible] to adoption [illegible] a decided objection the increased equipment will be not. Extent to take care of all the shipments it is anticipated will be offered.

A correspondent of Virginia Republicans [illegible] at Petersburg, Va. Gov. Fulton and the State Committee has delegated the duty of preparing an address embodying a platform of principles. Favorable reports have been from the different districts as to the condition of the party.

The following sums are recommended for next year's appropriations on the harbors named: Washington, [illegible]; Alexandria, [illegible]; Boston, [illegible]; Milwaukee, [illegible]; harbor of refuge at Milwaukee Bay, [illegible]; [illegible] for the improvement of the Ohio and Wisconsin rivers; Michigan City, [illegible]; Saint Marys, [illegible]; St. Joseph, [illegible]; Saugatuck, [illegible]; Black Lake, [illegible]; Grand Haven, [illegible]; Muskegon, [illegible]; White River, [illegible]; Pentwater, [illegible]; Ludington, [illegible]; Manistee, [illegible]; Portage Lake (harbor of refuge), [illegible]; Frankfort, [illegible]; Charlevoix, [illegible].

The money market was quiet and rather lower. Sterling bills were unchanged. In customs securities were dull. Speculation in stocks was on a moderate scale and the fluctuations in prices were without special significance. The Chicago corn market was active and much stronger with good buying both on account and by local bulls, who believe the corn will prove to be a very short crop. Other grains were quiet and generally [illegible] Provisions were quiet and generally [illegible] Cotton futures closed steady for January closed 10½ cents higher, [illegible] 11 cents higher, [illegible] cents higher, [illegible] cents higher, [illegible] cents higher, [illegible] cents higher, and [illegible] easy.

None of the petty events transpiring [illegible] continue to urge the members of their own candidates to fill the vacancies caused by the members' resignations. Only one State candidate has made evidence and [illegible] other parties, without a solitary candidature for responsible office. It is the right of republicans in the county parties to support such men in advocacy, any spring candidates. Their purpose is well understood. The County Board knows the interest. The republican State Committee [illegible] will make the people's money to correspondent entirely. The Democratic Commissioners are not accountable of the motives which actuate the Cranium. The Commissioners ought to be on their guard against the candidates urged by the party chiefs.

[illegible] the anticipated, the people of Lake View are getting tired of their City Council, and the bothersome location which it occasions. Already petitions for annexation are being circulated in the new city. Those residing in the district bounded on the north by Irvington avenue and on the west by Ravenswood avenue want their territory added to the city. The district embracing the most thickly settled portion of Lake View, is [illegible] probably about 40 per cent of all the [illegible] of the northern suburb and more than half the votes. It would be most natural, however, for those who favor annexation to unite their petition with the [illegible] Hyde Park, as the two districts are [illegible] each other. The annexation movement [illegible] Lake View [illegible] Lake Center [illegible] annexation. The latter [illegible] of Belmont avenue, embracing [illegible] Lake Shore road, of the latter would vote to be added to the city if they themselves were to be included. But the Whole Town of Lake View has a vote on this question, & will probably be found eager to embrace the new avenue by the annexation. It is only a question of a few years at most when all of the available land between Lake View and Chicago will be added to Chicago. The [illegible] of the new district, which has been followed by an increase in taxation, has helped reduce they material the opposition [illegible].

THE DEVIL IS QUITE OVERWORKED.

Many excellent gentlemen who have been urged to assume the office of County Commissioner during the week have pleaded as an excuse for their refusal that they stood ready to devote the time necessary to the proper management of county affairs owing to the pressure of private business. They seem to have suggested without considering the duties of Commissioners. Most of them seem to believe that it will be necessary to spend half their time at the County Board rooms or around the county's bailiwick. It is not surprising under the circumstances that they have been afraid to serve as Commissioners. But it is a mistake to suppose that the duties of the Commissioners properly performed will take a great deal of time. The false impression which prevails with reference to the matter doubtless grows out of the fact that the hostile Commissioners used to spend much of their days around the County Board rooms or in and out between there and the adjoining saloons. There was a pretense of holding committee meetings every day. This was for the purpose of affording the Commissioners an excuse for drawing their $5 per diem from the County Treasury. Most of the time spent in the board rooms or in the neighboring saloons was occupied in concocting schemes for plundering the taxpayers or in smoke enjoyment. Two or three hours each day for ten or fifteen days per week would really suffice for the transaction of the county business by the Commissioners. The will certainly be the case under the new County Budget law, which imposes the most important and serious duties of the Commissioners under the strictest of the board, the County Clerk as its clerk, and the Purchasing Agent, who is to be appointed by the board.

It is the opinion of the County Attorney and many leading business members of the County Board, that the position of commissioner will be one of honor and profit to devote the time necessary to the proper management of county affairs called

CONSIDERABLE OPPOSITION TO THE LAND BILL ANTICIPATED.

The House Meeting for a Revision of Rules in the Chief Room of Commons—The National Congress Likely to Be Postponed—Views on the Subject—A Radical Resolution—Liberation Speeches—Gladstone's Views Severely Criticised—Chamberlain's Next Rules.

London, Aug. 21.—A number of Tory Members propose to report their amendments to the land bill introduced in the House of Commons, namely, the clause providing for a system of judicial rents. They have also agreed on the question not to attempt to upset the provision of arrears. The principle of these limits has prompted the Liberals to further amending the Land Purchase Bill.

The Conservatives think there will be little opposition to the measure in its present form, and that the bill will be passed without the Lords making any material alterations. The Liberals propose to oppose the second reading of the Irish land bill, and the Parliamentary and all the Nationalists are urging the Liberal members to oppose the second reading of the bill. The Irish Land Conference at Dublin has decided to call a meeting of the Irish Land Conference, to be held in Dublin, to consider the Land Purchase Bill, which provides all opposition.

The Liberals think there will be little opposition to the measure in its present form, and that the bill will be passed without the Lords making any material alterations. The Liberals propose
